

News from Aberdeen FareShare

FareShare is growing in Aberdeen and we have had some excellent feedback from our various recipients, all delighted with the food they are receiving.

“I will say that we are delighted with the service so far and the women are just overwhelmed to receive such donations and they are very welcome”
(Grampian Women’s Aid)

We had originally planned a target of delivering 10 tonnes of produce by the end of March; this is now looking to exceed 20 tonnes

The implementation of Wiseman Dairies in October has proved to be a huge success. We have received approx 6 tonnes of produce from them and it has been gratefully received by all our homeless projects, breakfast clubs. Women’s Aid and other food projects throughout the city. Wiseman’s maintain good communication with us and regular deliveries ensure our recipients are not disappointed.

Thank you also to Alison and Gordon in Dundee for organising our deliveries up to Aberdeen, this is a huge help in keeping our shelves stocked up!

We have recruited some new volunteers who are proving to be invaluable and are enjoying their work with FareShare.
